

Facts & Figures

Company:

NOWOFOL Kunststoffprodukte GmbH & Co. KG

Our company is a world leading expert in manufacturing mono-oriented flat-die films out of polyolefin, especially polypropylene. Films out of the fluoropolymer ETFE and other thermoplastics round out our portfolio. NOWOFOL produces at two separate sites in Siegsdorf. We produce on slit die extrusion lines as well as on various slitting and winding machines. Additionally we work with two recycling lines.
